D. Goals/Objectives

1. The goal of this Agreement is develop a mathematically rigorous framework for governing multi-agent AI communication protocols using a composed Poincare-ball operator with five physical axioms, demonstrated on NMR spectroscopy task families, producing certified convergence bounds, a protocol coherence drift index (CDPTI), and a computational design tool for applying the framework to new scientific subdomains.

2. The Government will have continuous involvement with the Performer. The Government will also obtain access to research results and certain rights in patents and data pursuant to Articles **7** and **8**. The Government's liability to make payments to the Performer is limited to only those funds obligated under this Agreement or by modification to the Agreement. DARPA may incrementally fund this Agreement.

B. Payments

1. The Parties agree that fixed payments will be made for the completion of milestones. These payments reflect value received by the Government toward the accomplishment of the research goals of this Agreement.
2. The Performer has and agrees to maintain an established accounting system which complies with Generally Accepted Accounting Principles and with the requirements of this Agreement.
3. The Performer shall document the accomplishments of each milestone by submitting or otherwise providing the Milestones Report required by Attachment 3. To the maximum extent practicable, the DARPA AOR shall review the deliverable(s)/milestone report(s) and either: 1) provide a written notice of rejection to the Performer which includes feedback regarding deficiencies requiring correction, or 2) written notice of acceptance to the DARPA PM, AO, and Performer within fifteen (15) calendar days of receipt of deliverable(s)/milestone report(s). 4. Payments will be made by the Defense Agency Financial Services office, as indicated below, within thirty (30) calendar days of an accepted invoice in WAWF. WAWF is a secure web-based system for electronic invoicing, receipt and acceptance. The WAWF application enables electronic form submission of invoices, government inspection, and acceptance documents in order to support DoD's goal of moving to a paperless acquisition process. Authorized DoD users are notified of pending actions by e-mail and are presented with a collection of documents required to process the contracting or financial action. It uses Public Key Infrastructure (PKI) to electronically bind the digital signature to provide non-refutable proof that the user (electronically) signed the document with the contents. Benefits include online access and full spectrum view of document status, minimized re-keying and improving data accuracy, eliminating unmatched disbursements and making all documentation required for payment easily accessible.
5. The Performer is required to utilize the WAWF system when processing invoices and receiving reports under this Agreement. The Performer shall (i) ensure an Electronic Business Point of Contact is designated in System for Award Management at <http://www.sam.gov> and (ii) register to use WAWF-RA at the <https://wawf.eb.mil> site, within ten (10) calendar days after award of this Agreement. Step by Step procedures to register are available at the <https://wawf.eb.mil> site. The Performer is directed to use the "2-in-1" format when processing invoices. The Performer shall maintain an active registration for "All Awards" in System for Award Management (SAM) throughout the life of the award. For WAWF Payment and Invoicing Support, email DARPAInvoices@darpa.mil or contact WAWF help desk at 866-618-5988 or email disa.global.servicedesk.mbx.eb-ticket-requests@mail.mil.

- e. The following guidance is provided for invoicing processed under this Agreement through WAWF:
 - Acceptance within the WAWF system shall be performed by the **AOR or AO (choose one)** upon receipt of a confirmation email, or other form of transmittal, from the AOR.
 - The Performer shall upload the AOR approval as an attachment upon submission of an invoice in WAWF.
 - Payments shall be made by DFAS-(**INSERT APPROPRIATE DFAS OFFICE**).
 - The Performer agrees, when entering invoices entered in WAWF to utilize the CLINs associated with each milestone as delineated at Attachment **3**. The description of the CLIN shall include reference to the associated milestone number along with other necessary descriptive information. The Performer agrees that the Government may reject invoices not submitted in accordance with this provision.

Note for DFAS: The Agreement shall be entered into the DFAS system by CLIN – Milestone association (MS)/ACRN as delineated at Attachment **3. The Agreement is to be paid out by CLIN (MS)/ACRN. Payments shall be made using the CLIN (MS)/ACRN association as delineated at Attachment **3**.**

7. Limitation of Funds: In no case shall the Government's financial liability exceed the amount obligated under this Agreement.
8. Financial Records and Reports: The Performer shall maintain adequate records to account for all funding under this Agreement. Upon completion or termination of this Agreement, whichever occurs earlier, the Performer shall furnish a copy of the Final Report required by Attachment **2**, Part F. The Performer's relevant financial records are subject to examination or audit on behalf of DARPA by the Government for a period not to exceed three (3) years after expiration of the term of this Agreement. The AO or designee shall have direct access to sufficient records and information of the Performer, to ensure full accountability for all funding under this Agreement. Such audit, examination, or access shall be performed during business hours on business days upon prior written notice and shall be subject to the security requirements of the audited party.

ARTICLE 6: DISPUTES

A. General

The Parties shall communicate with one another in good faith and in a timely and cooperative manner when raising issues under this Article.

B. Dispute Resolution Procedures

1. Any disagreement, claim or dispute between DARPA and the Performer concerning questions of fact or law arising from or in connection with this Agreement, and, whether or not involving an alleged breach of this Agreement, may be raised only under this Article.
2. Whenever disputes, disagreements, or misunderstandings arise, the Parties shall attempt to resolve the issue(s) involved by discussion and mutual agreement as soon as practicable. In no event shall a dispute, disagreement or misunderstanding which arose more than three (3) months prior to the notification made under Subparagraph B.3 of this Article constitute the basis for relief under this Article unless the Director of DARPA in the interests of justice waives this requirement.
3. Failing resolution by mutual agreement, the aggrieved Party shall document the dispute, disagreement, or misunderstanding by notifying the other Party (through the DARPA AO or the Performer's Administrator, as the case may be) in writing of the relevant facts, identify unresolved issues, and specify the clarification or remedy sought. Within five (5) working days after providing notice to the other Party, the aggrieved Party may, in writing, request a joint decision by the DARPA Senior Procurement Executive, and senior executive (no lower than **Principal Investigator (sole proprietor; no higher organizational authority applies)** level) appointed by the Performer. The other Party shall submit a written position on the matter(s) in dispute within thirty (30) calendar days after being notified that a decision has been requested. DARPA Senior Procurement Executive, and the senior executive shall conduct a review of the matter(s) in dispute and render a decision in writing within thirty (30) calendar days of receipt of such written position. Any such joint decision is final and binding.
4. In the absence of a joint decision, upon written request to the Deputy Director of DARPA, made within thirty (30) calendar days of the expiration of the time for a decision under Subparagraph B.3 above, the dispute shall be further reviewed. The Deputy Director of DARPA may elect to conduct this review personally or through a designee or jointly with a senior executive (no lower than **Principal Investigator (sole proprietor; no higher organizational authority applies)** level (**The senior POC in paragraph 4 must be at least 1 level higher than the senior POC being referenced within paragraph 3.**) appointed by the Performer. Following the review, the Deputy Director of DARPA or designee will resolve the issue(s) and notify the Parties in writing. Such resolution is not subject to further administrative review by the Director of DARPA, whose decision to the extent permitted by law shall be final and binding.

C. Limitation of Damages

Claims for damages of any nature whatsoever pursued under this Agreement shall be limited to direct damages only up to the aggregate amount of DARPA funding disbursed as of the time the dispute arises. In no event shall DARPA be liable for claims for consequential, punitive, special and incidental damages, claims for lost profits, or other indirect damages.

ARTICLE 7: PATENT RIGHTS

A. Allocation of Principal Rights

1. Unless the Performer shall have notified DARPA, in accordance with Subparagraph B.2 below, that the Performer does not intend to retain title, the Performer shall retain the entire right, title, and interest throughout the world to each subject invention consistent with the provisions of this Article.

2. With respect to any subject invention in which the Performer retains title, DARPA shall have a nonexclusive, nontransferable, irrevocable, paid-up license to practice or have practiced on behalf of the United States the subject invention throughout the world.

B. Invention Disclosure, Election of Title, and Filing of Patent Application

1. The Performer shall disclose each subject invention to DARPA within four (4) months after the inventor discloses it in writing to their company personnel responsible for patent matters. The disclosure to DARPA shall be in the form of a written report and shall identify the Agreement and circumstances under which the invention was made and the identity of the inventor(s). It shall be sufficiently complete in technical detail to convey a clear understanding, to the extent known at the time of the disclosure, of the nature, purpose, operation, and the physical, chemical, biological, or electrical characteristics of the Invention. The disclosure shall also identify any publication, sale, or public use of the invention and whether a manuscript describing the invention has been submitted and/or accepted for publication at the time of disclosure.
2. If the Performer determines that it does not intend to retain title to any such Invention, the Performer shall notify DARPA, in writing, within eight (8) months of disclosure to DARPA. However, in any case where publication, sale, or public use has initiated the one (1) year statutory period wherein valid patent protection can still be obtained in the United States, the period for such notice may be shortened by DARPA to a date that is no more than sixty (60) calendar days prior to the end of the statutory period.
3. The Performer shall file its initial patent application on a subject invention to which it elects to retain title within one (1) year after election of title or, if earlier, prior to the end of the statutory period wherein valid patent protection can be obtained in the United States after a publication, or sale, or public use. The Performer may elect to file patent applications in additional countries (including the European Patent Office and the Patent Cooperation Treaty) within either ten (10) months of the corresponding initial patent application or six (6) months from the date permission is granted by the Commissioner of Patents and Trademarks to file foreign patent applications, where such filing has been prohibited by a Secrecy Order.
4. The Performer shall notify DARPA of any decisions not to continue the prosecution of a patent application, pay maintenance fees, or defend in a reexamination or opposition proceedings on a patent, in any country, not less than thirty (30) calendar days before the expiration of the response period required by the relevant patent office.
5. Requests for extension of the time for disclosure election, and filing under this Article, may be granted at DARPA's discretion after considering the circumstances of the Performer and the overall effect of the extension.
6. The Performer shall submit to DARPA annual listings of subject inventions. At the completion of the Agreement, the Performer shall submit a comprehensive listing of all subject inventions identified during the course of the Agreement and the current status of each.

C. Conditions When the Government May Obtain Title

Upon DARPA's written request, the Performer shall convey title to any subject invention to DARPA under any of the following conditions:

1. If the Performer fails to disclose or elects not to retain title to the subject invention within the times specified in Paragraph B of this Article; however, DARPA may only request title within sixty (60) calendar days after learning of the failure of the Performer to disclose or elect within the specified times;
2. In those countries in which the Performer fails to file patent applications within the times specified in Paragraph B of this Article; however, if the Performer has filed a patent application in a country after the times specified in Paragraph B of this Article, but prior to its receipt of the written request by DARPA, the Performer shall continue to retain title in that country; or
3. In any country in which the Performer decides not to continue the prosecution of any application for, to pay the maintenance fees on, or defend in reexamination or opposition proceedings on, a patent on a subject invention.

D. Minimum Rights to the Performer and Protection of the Performer's Right to File

1. The Performer shall retain a nonexclusive, royalty-free license throughout the world in each subject invention to which the Government obtains title, except if the Performer fails to disclose the subject invention within the times specified in Paragraph B of this Article. The Performer's license extends to its domestic (including Canada) subsidiaries and affiliates, if any, and includes the right to grant licenses of the same scope to the extent that the Performer was legally obligated to do so at the time the Agreement was awarded. The license is transferable only with the approval of DARPA, except when transferred to the successor of that part of the business to which the subject invention pertains. DARPA approval for license transfer shall not be unreasonably withheld.
2. The Performer's domestic license may be revoked or modified by DARPA to the extent necessary to achieve expeditious practical application of the Subject Invention pursuant to an application for an exclusive license submitted consistent with appropriate provisions at 37 CFR Part 404. This license shall not be revoked in that field of use or the geographical areas in which the Performer has achieved practical application and continues to make the benefits of the subject invention reasonably accessible to the public. The license in any foreign country may be revoked or modified at the discretion of DARPA to the extent the Performer, its licensees, or the subsidiaries or affiliates have failed to achieve practical application in that foreign country.
3. Before revocation or modification of the license, DARPA shall furnish the Performer a written notice of its intention to revoke or modify the license, and the Performer shall be allowed thirty (30) calendar days (or such other time as may be authorized for good cause shown) after the notice to show cause why the license should not be revoked or modified.

E. Action to Protect the Government's Interest

1. The Performer agrees to execute or to have executed and promptly deliver to DARPA all instruments necessary to (i) establish or confirm the rights the Government has throughout the world in those subject inventions to which the Performer elects to retain title, and (ii) convey title to DARPA when requested under Paragraph C of this Article and to enable the Government to obtain patent protection throughout the world in that subject invention.
2. The Performer agrees to require by written agreement with its employees, other than clerical and non-technical employees, to disclose promptly in writing to personnel identified as responsible for the administration of patent matters and in a format suggested by the Performer each subject invention made under this Agreement in order that the Performer can comply with

the disclosure provisions of Paragraph B of this Article. The Performer shall instruct employees, through employee agreements or other suitable educational programs, on the importance of reporting inventions in sufficient time to permit the filing of patent applications prior to U.S. or foreign statutory bars.

3. The Performer shall include, within the specification of any United States patent application and any patent issuing thereon covering a subject invention, the following statement:

This invention was made with Government support under Agreement No. **HR0011-XX-3-XXXX**, awarded by DARPA. The Government has certain rights in the invention.

F. Lower Tier Agreements

The Performer shall include this Article, suitably modified, in all subcontracts or lower tier agreements, regardless of tier, for experimental, developmental, or research work.

G. Reporting on Utilization of Subject Inventions

1. The Performer agrees to submit, during the term of the Agreement, an annual report on the utilization of a subject invention or on efforts at obtaining such utilization that are being made by the Performer or its licensees or assignees. Such reports shall include information regarding the status of development, date of first commercial sale or use, gross royalties received by the Performer, and such other data and information as the agency may reasonably specify. The Performer also agrees to provide additional reports as may be requested by DARPA in connection with any march-in proceedings undertaken by DARPA in accordance with Paragraph 1 of this Article. DARPA agrees it shall not disclose such information to persons outside the Government without permission of the Performer, unless required by law.
2. All required reporting shall be accomplished, to the extent possible, using the i-Edison reporting website: <https://www.nist.gov/iedison>. To the extent any such reporting cannot be carried out by use of i-Edison, reports and communications shall be submitted to the Agreements Officer and Administrative Agreements Officer.

H. Preference for American Industry

Notwithstanding any other provision of this Article, the Performer agrees that it shall not grant to any person the exclusive right to use or sell any subject invention in the United States unless such person agrees that any product embodying the subject invention or produced through the use of the subject invention shall be manufactured substantially in the United States. However, in individual cases, the requirements for such an agreement may be waived by DARPA upon a showing by the Performer that reasonable but unsuccessful efforts have been made to grant licenses on similar terms to potential licensees that would be likely to manufacture substantially in the United States or that, under the circumstances, domestic manufacture is not commercially feasible.

I. March-in Rights

The Performer agrees that, with respect to any subject invention in which it has retained title, DARPA has the right to require the Performer, an assignee, or exclusive licensee of a subject invention to grant a non-exclusive license to a responsible applicant or applicants, upon terms that are reasonable under the

circumstances, and if the Performer, assignee, or exclusive licensee refuses such a request, DARPA has the right to grant such a license itself if DARPA determines that:

1. Such action is necessary because the Performer or assignee has not taken effective steps, consistent with the intent of this Agreement, to achieve practical application of the subject invention;
2. Such action is necessary to alleviate health or safety needs which are not reasonably satisfied by the Performer, assignee, or their licensees;
3. Such action is necessary to meet requirements for public use and such requirements are not reasonably satisfied by the Performer, assignee, or licensees; or
4. Such action is necessary because the agreement required by Paragraph H of this Article has not been obtained or waived or because a licensee of the exclusive right to use or sell any subject invention in the United States is in breach of such Agreement.

SCHEDULE OF MILESTONES AND PAYMENTS

NOTE: Please fill out [Schedule of Milestones and Payment Excel Spread Sheet](#), information will be incorporated into award

Helpful notes for Milestones:

- Each milestone will mark the completion of a measurable event (i.e., completing a baseline execution plan, completing measurable events in the performance of the research and development of the technology, completing and submitting the final report, etc.).
- Deliverable narrative should provide description of what is being delivered, the word “Report” is not sufficient. **“Status/Progress/Reports” cannot be milestones.**
- The milestone description will show how the milestone will be demonstrably completed.
- Payments associated with each milestone must reflect the actual comprehensive costs to achieve milestone completion. **(Note do not take total cost and divide by number of milestones)**
- Although this is a R&D effort the amounts against each milestone should NOT be the same. consider what actually goes into the pricing of that particular milestone as each milestone should have its own cost. (If amounts remain the same, please clearly expand the deliverable description)
- The milestones need to be more definitive and consider what actually goes into the pricing of that particular milestone.
- The milestone description will show how the milestone will be demonstrably completed.

Three Milestone Examples:

- Kickoff Meeting presentation including project design, acquisition of equipment, and overall workflow leading to accomplishment of deliverables. Kickoff briefing package will include team organization, technical approach and research goals, expected results and schedule, and risk and mitigation strategies
- Kick-off meeting presentation with description of proposed effort to include the description of proposed concept, focus area and potential application domain; Justification of proposed approach based on preliminary analyses or modeling; Justification of the benefits of the proposed scheme in achieving beyond-XXX performance in the potential application domain; Description and preliminary analyses of the proposed concept metrics that will be achieved during the period of performance, and comparison of these metrics to the current XXX. All supporting positions identified in the proposal are assigned to personnel, and names are provided to the Government. Order materials and equipment.
- Design XXXX molecule candidate(s) and investigate simulated molecular conformation changes induced by the onset and offset of near infrared (NIR) light in the range of 750 nm to 900 nm, as well as simulated binding to target protein(s) of interest in the presence of NIR light. METRIC: XXXX candidates demonstrate molecular conformation change in the presence of NIR light in the range of XXX to XXX nm, and bind to target protein(s) of interest in the presence of NIR light in a simulated environment.

Two Exit Criteria Examples:

- Submit kickoff meeting charts and Initial Test Plan
